

Staff Senate Biography

Name: James Dale Prince

Job title: Director of Libraries

School or Division: Vice Chancellor of Academic Affairs

Tenure at LSUHSC-NO: 7 years

What do you hope the Staff Senate accomplishes and why are you a Senator?

I hope the LSUHSC-NO Staff Senate becomes a strong advocate for transparency, equity, and communication across campus departments. It should serve as a voice for staff concerns and be a partner in institutional decision-making, helping leadership understand how policies affect day-to-day operations and the individuals tasked with carrying out those operations. I became a Staff Senator because I wanted to help amplify the voices of staff across the LSUHSC-NO campus.

Why do you enjoy working at LSUHSC?

I like working at LSUHSC-NO because every day I have the opportunity to contribute to an institution that directly impacts health, education, and research—locally and beyond. The Libraries support the education of those who will provide health services to the community and research into new and effective treatments. I feel considerable satisfaction that what we do helps elevate health outcomes in Louisiana and the country.
